

DIGITAL SIGNAGE

Nova Digital Signage is the easiest way to manage and display special content to reach and communicate with customers and even employees. It can be used in public spaces, retail stores, restaurants, transportation systems, hotels, schools, corporate buildings and more.

TURN ANY SCREEN INTO A DIGITAL SIGN!

Our solution makes it easy to manage content on a number of screens in various locations (anywhere), display multiple RSS feeds, and supports JPEG, GIF, PNG, MP4, and MOV files.

Attract customers or keep employees informed with an immersive experience while communicating events, promotions, meeting or any kind of information

Special Features

- Access for multiple users
- Fast and easy set-up
- Multiple screens management in one same site.
- Easy management and content scheduling
- Upload any image or video file types
